

Color Order Module

Four vibrant rectangle buttons.
Simple, yet in what order should we press them..?

How To Solve?

Use the Safe Model Guide (fig. 01) to pinpoint the correct cell.
Find the correct cell in the W&D (fig. 02) chart. Read the order.
Press the 4 buttons in the order from the chart.

A wrong button press will reset the puzzle and cost you 20 seconds.

Safe Model Guide

(fig. 01)

If the Serial Number has more letters than numbers:

- ★ If the Serial Number contains a word: **W1**
 - ★ If the Serial Number doesn't contain a word: **D3**
-

If the Serial Number has more numbers than letters:

- ★ If the sum of the numbers in the in the Serial Number is over 10: **D2**
 - ★ If the sum of the numbers in the in the Serial Number is less than 10: **W4**
-

If the Serial Number has equal count of numbers and letters:

- ★ If the dynamite fuse is red: **W2**
 - ★ If the dynamite fuse is blue: **D1**
 - ★ If the dynamite fuse is green: **W3**
 - ★ If the dynamite fuse is yellow: **D4**
-

Witz & Doppler Color Order Chart

(fig. 02)

	1	2	3	4
Witz	RGBY	GBRY	BYGR	YRBG
Doppler	RBGY	YGBR	BGRY	GYRB

Casino Carousel Module

Ahh, the slot machine.

The less you bet, the more you lose when you win.

How To Solve?

The lever can be pushed up or pulled down.

Look at the slot tables (fig. 01). Find the correct table based on the Serial Number.

Push up or pull down the lever based on the slot combination and dynamite fuse color.

If a slot combination is displayed more than once, reverse the direction every time.

A wrong lever trigger will cost you 10 seconds.

Slot Combinations & Lever Directions

(fig. 01)

If the Serial Number contains a word:

Slot Combination	Red Dynamite Fuses	Green Dynamite Fuse	Blue Dynamite Fuse	Yellow Dynamite Fuse
♥ ♥ ♥	DOWN	DOWN	UP	DOWN
♦ ♣ ♦	DOWN	UP	DOWN	DOWN
♠ ♠ ♠	UP	DOWN	UP	UP
♣ ♦ ♠	UP	UP	DOWN	DOWN

If the Serial Number contains more than 3 numbers:

♠ ♠ ♠	DOWN	UP	DOWN	DOWN
♦ ♣ ♦	UP	DOWN	UP	UP
♣ ♦ ♠	DOWN	DOWN	UP	UP
♥ ♥ ♥	UP	UP	DOWN	UP

If none of the previous conditions are met:

♣ ♦ ♠	UP	UP	DOWN	DOWN
♥ ♥ ♥	DOWN	DOWN	DOWN	UP
♦ ♣ ♦	DOWN	UP	DOWN	UP
♠ ♠ ♠	UP	DOWN	UP	DOWN

Wire Fusebox Module

Four wires, eager to be connected to the right socket.
A fusebox! The only place where crossing lines is considered progress.

How To Solve?

There are four draggable wire connectors on the right and four sockets on the left.

Read the Electrotechnical Guide (fig. 01)

Connect all the wires to the correct sockets and press the button to test the connections.

A wrong wire connection will sting & cost you 20 seconds.

Electrotechnical Guide

(fig. 01)

The sockets are numbered 1 to 4, from top to bottom. This guide will tell you which colored wire to connect to each socket, based on the safe model & dynamite fuse color.

Blue Wire:

If the dynamite fuse is red, connect it to the 1st socket.

If the dynamite fuse is green, connect it to the 2nd socket.

If the dynamite fuse is blue, connect it to the 3rd socket.

If the dynamite fuse is yellow, connect it to the 4th socket.

Red Wire:

If the dynamite fuse is red, connect it to the 2nd socket.

If the dynamite fuse is green, connect it to the 3rd socket.

If the dynamite fuse is blue, connect it to the 4th socket.

If the dynamite fuse is yellow, connect it to the 1st socket.

Green Wire:

If the dynamite fuse is red, connect it to the 3rd socket.

If the dynamite fuse is green, connect it to the 4th socket.

If the dynamite fuse is blue, connect it to the 1st socket.

If the dynamite fuse is yellow, connect it to the 2nd socket.

Yellow Wire:

If the dynamite fuse is red, connect it to the 4th socket.

If the dynamite fuse is green, connect it to the 1st socket.

If the dynamite fuse is blue, connect it to the 2nd socket.

If the dynamite fuse is yellow, connect it to the 3rd socket.

Special Cases:

If the serial number contains a word, do not connect any wires to sockets 2 and 4.

If the serial number contains more than 3 numbers, do not connect the red wire.

Symbol Order Module

These symbols... What could they possibly mean?

How To Solve?

See the conditions in Safe Models Guide (fig. 01), figure out what not to press and in what direction to read the Symbol Map (fig. 02, page 5).

Find the correct column/row and press them in the correct order.

A wrong button press will cost you 30 seconds.

Safe Models Guide

(fig. 01)

If the dynamite fuse color is red, read Symbol Map (fig. 02) from top to bottom (columns).

If the dynamite fuse color is green, read Symbol Map (fig. 02) from bottom to top (columns).

If the dynamite fuse color is blue, read Symbol Map (fig. 02) from left to right (rows).

If the dynamite fuse color is yellow, read Symbol Map (fig. 02) from right to left (rows).

If the Serial Number has more numbers than letters, do not press the “DON’T PRESS” button. Otherwise press it.
